

**Notice to Property Owners: Proposed Rate Actions by
County of San Bernardino, Special Districts Department,
Water/Sanitation Division, County Service Area 53,
Improvement Zone B (District)**

The County of San Bernardino Board of Supervisors (Board), acting as the governing body of the District, is considering an increase in sewer rates for all classes of users, effective July 1, 2008. The increases are driven by increasing energy costs, which have risen since the last rate adjustment in 2007. Specific effects to overall costs include cost of living adjustments for support/labor; general regional costs represented by increases in the Consumer Price Index; rapid increases in fuel costs; continued delinquencies in fee collections; and increases to mandated costs such as insurance, permits and compliance with regulatory agencies, as well as services provided by the County of San Bernardino Departments. The Board will make its decision following a public hearing to be held Tuesday, June 17, 2008 at 10:00 a.m. at the County Government Center, 385 North Arrowhead Avenue, Board Chambers First Floor in San Bernardino, California 92415.

The proposed increase in the sewer rate is applied uniformly to customers based on industry factors that reflect the cost for collection, treatment and disposal of the wastewater generated by each customer. Please note that sewer bills will continue to be sent bi-monthly.

Rates are reviewed and recalculated annually using an intensive review process that includes use of projection models and interface with Operations, Administration and Engineering professionals. Factors to be considered include level of revenue needed to fund current plans for future infrastructure (repair and replacement); cover cash flow needs; provide reserve requirements; cover anticipated operating costs; and ensure continued integrity of service delivery and system.
