

**Notice to Property Owners: Proposed Rate Actions by
County of San Bernardino, Special Districts Department,
Water and Sanitation Division, County Service Area 70,
Zone S-3 (District)**

The County of San Bernardino Board of Supervisors (Board), acting as the governing body of the District, is considering an increase in sewer rates for all classes of users, effective July 1, 2011. The rate increase is driven by the multi-year funding of a pipeline replacement and relocation project and the planned implementation of an automated system to allow remote monitoring and control of wastewater treatment equipment. The Board will make its decision following a public hearing to be held Tuesday, June 7, 2011 at 10:00 a.m. at the County Government Center, 385 North Arrowhead Avenue, Board Chambers First Floor in San Bernardino, California.

The proposed increase in the sewer rate is 4% and will be applied uniformly to customers based on industry factors that reflect the cost for collection, treatment, and disposal of the wastewater generated by each customer. Please note that sewer bills will continue to be sent bi-monthly.

Rates are reviewed and recalculated annually using an intensive review process that includes use of projection models and interface with Operations, Administration and Engineering professionals. Factors to be considered include level of revenue needed to fund current plans for future infrastructure (repair and replacement); cash flow needs; reserve requirements; anticipated operating costs; and ensure continued system integrity and service delivery.
